ROBERT C. YOUNG, WHOLESALE NURSERYMAN, GREENSBORO, N. C., demonstrating just how his little evergreens are wrapped and prepared for shipment in all parts of the United States. Months of patience, risk, work and investment are wasted in a few hours if nursery stock is not properly packed to withstand the endurance test of days and weeks to which it is subjected. Instructions for wrapping and packing require the same concentrated thought as the selection of strains and varieties.

Proof that I am the best packer of young evergreen stock in America is the \$500.00 reward which I have been offering for four years to any one who could show me a better method. In packing I first puddle the roots, then cover the roots with pure moss around which I wrap K. V. P. Whalehide waterproof paper. I have made shipment of over 6,000 miles which arrived in perfect condition. A trial will convince you.

# Fall 1928 YOUNG'S EVERGREENS

**50 TO 60 PER CENT CUT**  
15 per cent discount for 1-2 cash with order. Free Packing until Oct. 1, 1928.

**WHY? WHY? WHY?**  
That's Your Business and My Business  
**WHAT?**

To grow in quantity by the millions the very best quality stock in America and to sell it at the lowest possible price. I am after YOUR BUSINESS and if you are on your job this list will get it. You will save money on each item and at the same time get the best graded and best packed quality stock in the U. S. A. I make no exception to this statement. It has been proven by a standing offer of \$500.00 over a period of four years that my packing and handling of small evergreens is the very best to be found in America. Now Listen to This: Show me a price list printed previous to this list with

any item such as I offer at a cheaper price, I will meet that price and besides give you a 15 per cent discount for cash, with free packing. Is that fair? Is not that giving you the opportunity to secure your planting stock 15 per cent cheaper than you can purchase it any where else in the U. S. A.? Sure it is. Now get busy, rush that order in before OCTOBER 1ST, deduct 15 per cent, send check for one half the amount of your order, balance to go C. O. D. Stock to be shipped any time between now and May 1, 1929.

**Abies, The Firs**

**ABIES CONCOLOR (White Fir)**

Tree to 120 feet tall. Hardy in southern Canada. Blue-green leaves and handsome pyramidal growth. One of the most successful of American Firs for cultivation, withstanding heat and drought well. Makes a magnificent lawn specimen.

100	1000
1 yr. beds	2.00 18.00

**ABIES NORDMANNIANA (Nordmann's Fir)**

A pyramidal tree with small dense needles, dark green on surface with silvery tones on under side. The finest of all the Firs, very scarcer.

2 yr. beds 2 in.	7.00 60.00
1 yr.	5.00 40.00

**ABIES PECTINATA**

Foliage dark green above, silvery white below. This makes an fine tree for lawn planting, growing to a height of 100 feet.

1 yr.	1.75 15.00
-------	------------

**Buxus, The Boxwood**

**BUXUS SEMPERVIRENS ARBORESCENS (Tree Boxwood)**

An evergreen shrub, with dense, growing branches, covered with dark shining green foliage; stands pruning very well, thrives in almost any well-drained soil. It is a desirable plant for formal use.

4 yr. trans. 12-18 in.	25.00 200.00
4 yr. trans. 10-12 in.	17.50 150.00
4 yr. trans. 8-10 in.	10.00 87.50

2 yr. rooted cuttings 2-4 in.	3.00 25.00

**Cedrus, The Cedars**

**CEDRUS ATLANTICA (Atlas Cedar)**

A large majestic pyramidal tree with silvery green foliage.

2 yr. trans. 4-6 in.	8.00 75.00
2 yr. 8-10 in.	10.50 100.00
2 yr. 6-8 in.	9.00 87.50
1 yr. 2-1 in.	4.00 37.50

**CEDRUS DEODARA (Deodar)**

Featherly arborescent blue foliage considered most beautiful ornamental cedar for the Atlantic, Southern and Pacific Coast States. Deodar is a Hindu word, meaning Tree of the Gods. Almost unparalleled in the grandeur of its pendulous and lithe branches.

2 yr. trans. 8-10 in.	15.00 140.00
2 yr. trans. 6-8 in.	10.50 100.00
1 yr. beds 4-6 in.	6.00 50.00
1 yr. beds 2-4 in.	4.00 30.00

**CEDRUS LIBANI (Cedar of Lebanon)**

When small the tree is of real regularity shaped outline with wide spreading branches, but as the tree increases in age it assumes a round open head, a change from the beautiful to the picturesque. Aside from its ornamental value it is of peculiar interest for its scriptural and historical associations. It is said to be the most hardy of the Cedrus family.

1 yr. 2-4 in.	2.50 20.00

**Cupressus, the Cypress**

**CUPRESSUS ARIZONICA (Arizona Cypress)**

Attractive for its silvery blue color, grown from seed. Beautiful blue or glaucous pyramidal tree, horizontal branching, dense foliage. Attains 40 feet, making perfectly shaped specimen.

100	1000
2 yr. 6-8 in.	3.50 30.00
2 yr. 4-6 in.	3.00 25.00
1 yr. 4-6 in.	2.50 20.00

**CUPRESSUS SEMPERVIRENS (Italian Cypress)**

This is a tall, slender evergreen, straight and columnar. Its dark green shaft rising above other shrubbery, gives a varied sky line. It is equally at home in small grounds or large ones, with the elegance of the larger house. During a long life, it reaches great height. This is the tree which so many American tourists in Italy become enthusiastic about.

2 yr. beds 4-6 in.	3.50 30.00
--------------------	------------

**Euonymus**

**EUONYMUS BUNGEANUS (Winterberry Euonymus)**

Leaves dark, shining green. A fine plant for the lawn. Berries in almost any situation.

1 yr. 4-6 in.	3.50
---------------	------

**EUONYMUS JAPONICA (Evergreen B.)**

Leaves dark, shining green. A fine plant for the lawn. Berries in almost any situation.

2 yr. trans. 6-8 in.	8.50 75.00
----------------------	------------

**EUONYMUS SIEBOLDIANA**

1 yr. 4-6 in.	3.50
---------------	------

**Juniperus**

**JUNIPERUS SCOPULORUM**

1 yr. 2-4 in.	8.00 75.00
---------------	------------

**JUNIPERUS VIRGINIANA (Red Cedar)**

An attractive, well known tree. Pyramidal shape, very hardy. Covered with silvery blue berries in season. Good in background or for shrub. Can be kept low by occasional shearing and makes a beautiful shrub in a foundation or general planting.

2 yr. 4-6 in.	4.50 40.00
---------------	------------

**Larix, The Larch**

**LARIX DAHURICA (Dahurian Larch)**

Rare rapid-growing species from Eastern Siberia; up to 80 feet.

2 yr. 4-6 in.	6.00 50.00
1 yr.	4.00 37.50

**LARIX EUROPAEA (European Larch)**

Large tree of fine pyramidal growth.

2 yr. 8-10 in.	7.00 60.00
2 yr. 6-8 in.	5.00 45.00

**LARIX LEPTOLEPIS (Japanese Larch)**

Tree to 80 feet high and very handsome as a lawn specimen.

2 yr. 4-6 in.	6.00 50.00
1 yr.	4.50 37.50

**LARIX OCCIDENTALIS (Western Larch)**

Horizontal branches forming a narrow pyramidal head; leaves pale green.

1 yr.	4.00 37.50
-------	------------

**Ligustrum, The Privets**

**LIGUSTRUM JAPONICUM (Japanese Privet)**

Very handsome broad-leaved shrub with large, dark-green leaves. Flowers produced in racemes followed by purple berries which are retained during the winter, giving the plant a very pleasing appearance. This plant can be grown into a small tree, can also be trimmed into pyramidal, standard or other forms. Ultimate height, 20 to 30 feet.

100	1000
2 yr. beds 12-18 in.	5.00 45.00
2 yr. beds 8-12 in.	3.50 30.00
2 yr. beds 6-8 in.	1.75 20.00
2 yr. beds 4-6 in.	1.50 10.00

**LIGUSTRUM JAPONICUM AUREA (from seed)**

A large shrub similar in habit to Ligustrum Japonicum, but with leaves deeply margined with golden yellow. Very attractive in plantings used in combination with green and silvery leaved forms. Ultimate height 10 to 15 feet.

2 yr. 8-10 in.	4.00 37.50
2 yr. 6-8 in.	3.50 30.00

**LIGUSTRUM LUCIDUM (Glossy Privet)**

A beautiful form of Japanese Privet. Leaves large, thick, erect, lanceolate of a very dark shining green. Large head of white flowers produced in May, followed by black berries, which are retained throughout the winter. Hardy at Baltimore. A most desirable variety. Attains a height of 30 feet.

2 yr. beds 8-10 in.	7.00 60.00
2 yr. beds 6-8 in.	5.00 45.00
2 yr. 4-6 in.	3.50 30.00
1 yr. 2-4 in.	2.50 20.00

**LIGUSTRUM NEPALENSE (Nepal Privet)**

Medium size, dark green, glossy leaves; uniform, compact spreading growth. A very attractive plant, essential to landscape planting in masses, banking or groups. Fills space between tall, rank growing shrubs and the very low growing types.

2 yr. 8-10 in.	4.50 40.00
2 yr. 6-8 in.	3.50 30.00
1 yr. 4-6 in.	3.00 25.00
1 yr. 2-4 in.	2.50 20.00

**MAGNOLIA**

**MAGNOLIA GRANDIFLORA (Southern Magnolia)**

This is the grandest of all our native broad-leaved evergreen trees. It is a native of the middle sections of the Southern States, and succeeds best in a rich soil. Nothing more conspicuous can be seen among evergreens where its large, white flowers are fully expanded. Their period of blooming begins the middle of April and lasts until August. Hardy at Philadelphia.

1 yr. 4 in.	6.00 50.00
1 yr. 2-4 in.	4.50 40.00

**MAGNOLIA GLAUCA**

1 yr. 4 in.	6.00 50.00
-------------	------------

Nandina		
NANDINA DOMESTICA (Nandina)		
The delicate foliage of the Nandina is a brilliant dark of glossy orange red or crimson fall to winter. It is a shrubby plant, bearing many of the dwarfed plants of Japanese garden. The leaves are dark red when young, dark green at maturity, and heavily colored in winter. Nandina thrives well in any well drained, loamy soil, and is fairly hardy. In autumn it is covered with rosy clusters of small red berries. This plant is one of the three plants most used in the better class of landscape work.

1 yr. 2-4 in. ....	4.00	37.50

Picea, The Spruces		
PICEA ALBA		
Described by Bailey, the eminent horticulturist, as "A better of the Northern part of America." It derives the name White Spruce due to its light frosty green foliage, slightly tinged with blue.		
2 yr. 2 in. ....	3.50	30.00
1 yr. ....	2.50	20.00

PICEA EXCELSA (Norway Spruce)		
For many years Norway Spruce has been highly appreciated because of its rapid growth, its brilliant foliage, and its heavy mass of deep green foliage. Some of the finest old bridges are of Norway Spruce, and the trees are readily planted to any desired height. On farms and around homes all over the country Norway Spruce is giving substantial protection to stock and buildings. Norway Spruce is a tall, pyramidal, and hardy tree, graceful in all its phases, and well adapted to planting over a wide range of territory.

2 yr. trans. 4-6 in. ....	3.00	25.00
1 yr. 2-4 in. ....	1.50	10.00

PICEA ORIENTALIS (Oriental Spruce)		
Tree to 120 feet tall with spreading and spreading branches and some-what pendulous branches; leaves thick, bluish, dark green and shining, crowded and close or less crowded in the branches. Very aromatic.		
2 yr. beds 2-4 in. ....	5.00	45.00

PICEA PUNGENS (Colorado Spruce)		
Tree 80 to 100 feet or more. Handsome tree of symmetrical habit with light colored foliage. Very popular as a lawn tree and for plantations. One of the best of all Spruces.		
3 yr. trans. 4-6 in. ....	7.00	60.00
3 yr. beds 4-6 in. ....	4.50	40.00
2 yr. beds 4-6 in. ....	3.00	25.00
2 yr. 2 in. ....	2.00	18.00

Pinus, The Pines		
PINUS AUSTRIACA (Austrian Pine)		
Has rich, glossy, dark green foliage. Well adapted for planting in either, as it is highly resistant to smoke. A fast growing dwarf tree of wonderful adaptability.		
3 yr. 4-6 in. ....	3.50	30.00
1 yr. ....	2.50	20.00

PINUS DENSIFLORA (Japanese Red Pine)		
Tree to 100 feet tall, in cultivation much less. Handsome ornamental Japanese Pine of rapid growth when young, very picturesque when older.		
1 yr. ....	1.50	12.50

PINUS EDULIS (Nut Pine)		
Small tree 10 to 20 feet in height with beautiful foliage. Very bushy. Foliage dark green. Hardy north as far as Massachusetts.		
1 yr. 2-4 in. ....	6.00	50.00

PINUS FLEXILIS (Lumber Pine)		
Tree to 60 feet in height. A hardy, sun-loving pine with spreading branches densely clothed with dark green leaves. Adapted for planting on rocky slopes.		
2 yr. 4-6 in. ....	7.00	65.00

PINUS MONTANA (Swiss Mountain Pine)		
Very variable in habit; usually low, often prostrate shrub, some- times pyramidal tree to 40 feet tall. Usually handsome low shrub with bright green foliage.		
2 yr. beds 4-6 in. ....	4.00	35.00
2 yr. beds 2-4 in. ....	2.50	20.00

PINUS MONTANA MUGHUS		
Perhaps the most useful of the dwarf Pinus for landscape planting. Very shrubby and low.		
2 yr. 2-4 in. ....	2.50	20.00

PINUS MUGHUS (Mugho Pine)		
Most interesting evergreen forming a compact and symmetrical dome of bright green foliage; needles are sharp and a rich green color. Succeeds in any soil, and is invaluable for planting in a dry rocky location.		
2 yr. 4 in. ....	3.50	30.00
2 yr. 2-4 in. ....	2.50	20.00

PINUS PINASTER (Cluster Pine)		
Tree to 100 feet, with spreading or somewhat pendulous branches forming a pyramidal head; branches bright reddish brown; buds oblong-oval brown, not resinous; leaves stiff, acute, usually twisted, glaucous green.		
2 yr. 10-12 in. ....	3.50	30.00

PINUS PINEA (Italian Stone Pine)		
Compact and symmetrical when young, and picturesque when older, with a broad, conical head. Hardy only in California and the South.		
2 yr. 2-4 in. ....	3.00	25.00

PINUS PONDEROSA (Western Yellow Pine)		
Tree occasionally to 100 feet tall, probably 50 to 75 feet in cultivation. Handsome tree with somewhat spreading branches. Very fine ornamental.		
2 yr. beds 2-4 in. ....	1.00	100.00
2 yr. beds 2-4 in. ....	2.50	20.00

PINUS SYLVESTRIS (Scotch Pine)		
A splendid tree of broad pyramidal habit, rather open, with spreading branches and needles of varying length of a bright green color. Most solid and attention; ultimate height 35 to 40 feet.		
2 yr. beds 4-6 in. ....	3.00	25.00

PINUS STROBUS (White Pine)		
The White Pine is the largest of all conifers native to the eastern part of the United States. It readily adapts itself to both dry and moist soils, for it is found on the poorest and driest soil, and on moist, rocky slopes, and also on moist clay flats and river bottoms. It grows rapidly and has long, flexible needles, bluish-green beneath.		
3 yr. 6-8 in. ....	5.00	45.00
2 yr. 2-4 in. ....	3.00	25.00

PINUS THUNBERGII (Japanese Blue Pine)		
Tree to 100 feet tall. Large winter buds silvery-white. A handsome picturesque tree.		
2 yr. 4-6 in. ....	3.00	25.00

Thuja, The Arborvitae		
THUJA OCCIDENTALIS (American Arborvitae)		
The American Arborvitae is the most common of the conifers, and of the most useful types have been developed. The native forests of the Pacific Coast have been of great commercial value for lumber, and during the last few years much of the timber has been used for telegraph poles. The Arborvitae is very hardy and dependable in almost any situation. It stands burning well, and for this reason is widely used for hedge purposes. It usually grows bushy at the bottom and tapering toward the top. Foliage is very soft and flexible and of a deep green color.		
4 yr. trans. 8-10 in. ....	7.50	60.00

2 yr. beds 6-8 in. ....	3.00	25.00
1 yr. beds 4-6 in. ....	2.00	15.00

THUJA ORIENTALIS COMPACTA		
A compact, dwarf shrub with green foliage. Excellent for lawn and for urban. Most attractive.		
2 yr. beds 4-6 in. ....	4.00	35.00
1 yr. beds 2-4 in. ....	3.00	25.00

Tsuga, Hemlock		
TSUGA DIVERSIFOLIA (Japanese Hemlock)		
2 yr. 2 in. ....	3.00	25.00

Taxus		
TAXUS CUSPIDATA (Japanese Yew)		
A very hardy and desirable variety of Taxus, foliage somewhat broader than that of the English Yew. This is the spreading form of Japanese Yew.		
1 yr. ....	6.00	50.00

Ulex		
ULEX EUROPAEUS (Common Gorse)		
Ornamental evergreen plant. Grows to 10 feet, bears yellow flowers. Has dark green shiny leaves. Valuable for covering dry rocky slopes, also well suited for roadside planting.		
1 yr. 4-6 in. ....	2.50	

Ulmus		
ULMUS PUMILA (Chinese Elm)		
Most valuable fast growing tree ever introduced.		
1 yr. 12-18 in. ....	4.50	40.00
1 yr. 6-12 in. ....	3.50	30.00

SHRUBS AND TREES		
ACER PALMATUM ATROPURPUREUM (Genuine Red Maple)		
Genuine hardy well collected pure seedling trees. Seedlings are selected and are guaranteed to be red. A favorite. (No discount from these prices)		
2 yr. 6-8 in. ....	40.00	300.00
2 yr. 4-6 in. ....	30.00	250.00

ACER PALMATUM (Japanese Maple)		
This species and Acer Japonicum are known as Japanese maples. They are extremely handsome shrubs of dense though graceful habit, and with elegant foliage, beautiful especially in spring when the delicate shades of green and red, and again in autumn when the leaves assume the most striking tints. Largely used for landscape work for the many Japanese varieties.		
2 yr. beds 6-8 in. ....	7.50	65.00
2 yr. beds 4-6 in. ....	6.00	50.00
1 yr. 3-4 in. ....	3.50	30.00

AUCUBA JAPONICA (Gold Dust) (Japanese Aucuba)		
2 yr. 4-6 in. ....	35.00	

BUDDLEIA (Butterflybush)		
Very effective with green foliage and deep blue flowers. Likes sun. June-September.		
2 yr. trans. field, 2-3 ft. ....	5.00	40.00

CRATAEGUS PYRACANTHA COCCINEA		
A beautiful variety of evergreen burning bush. Very effective and desirable. In early spring the plant is covered with a profusion of white flowers, which are followed by bright orange berries, these being retained during the winter.		
2 yr. 4-6 in. ....	3.00	22.50

CRATAEGUS PYRACANTHA CRENULATA		
2 yr. beds 6-12 in. ....	100	1000
2 yr. beds 6-12 in. ....	20.00	

CRATAEGUS PYRACANTHA LALANDI		
A shrub with large shining foliage which frequently colors crimson and bronze in winter. White flowers produced in large trusses followed by red berries. In spring the young growths are a delicate shade of light green which in contrast with the darker foliage gives a very beautiful effect. Ultimate height 5 to 12 feet. Foliage will be dried, leaved and used for tea, although does fairly well in shade. A very valuable and scarce plant. Do not fail to add this fine plant to your collection.		
2 yr. beds 4-6 in. ....	4.50	37.50

CYDONIA JAPONICA (Flowering Quince)		
2 yr. beds 6-12 in. ....	10.00	

DESMODIUM BICOLOR (Lepedeza)		
2 yr. 8-12 in. ....	4.00	35.00

DESMODIUM FORMOSA ALBA (Lepedeza)		
2 yr. 8-12 in. ....	4.00	35.00

MAHONIA AQUIFOLIUM (Oregon Hollyleaf)		
2 yr. 2-4 in. ....	5.00	40.00

PHOTINIA SERRULATA (Low Photinia)		
A shrub with large shining foliage which frequently colors crimson and bronze in winter. White flowers produced in large trusses followed by red berries. In spring the young growths are a delicate shade of light green which in contrast with the darker foliage gives a very beautiful effect. Ultimate height 5 to 12 feet. Foliage will be dried, leaved and used for tea, although does fairly well in shade. A very valuable and scarce plant. Do not fail to add this fine plant to your collection.		
2 yr. beds 6-8 in. ....	7.00	60.00
2 yr. beds 4-6 in. ....	6.00	50.00
2 yr. beds 2-4 in. ....	4.50	40.00
1 yr. ....	3.50	35.00

PHOTINIA VILLOSA		
Of varying height but normally medium, liberally set with small cymes of white flowers in June. The foliage is gorgeously red in the fall, and the bird-proof leaflets carry the same scarlet gleam half through winter.		
2 yr. beds 6-8 in. ....	3.50	30.00

SYRINGA VULGARIS ALBA		
The old fashioned White Lilac, blooming in early spring; very fragrant.		
2 yr. beds 4-6 in. ....	5.00	40.00

TAXODIUM DISTICHUM (Common Bald-Cypress)		
A tall pyramidal tree, grown in thick growth in the South, which is light green in color.		
2 yr. 12-18 in. ....	8.00	75.00
2 yr. 8-12 in. ....	7.00	60.00

REGALE LILY		
LILIIUM REGALE (Regale Lily)		
"One of the most brilliant of all known lilies. The corolla is a brilliant red, and the petals are a glowing contrast with the rich, deep green foliage. Highly recommended for general culture, both for pot and the open ground. Strong growing and abundant as for north as Berlin." (Bailey)		
"L. Regale came to us from China. With its large flowers, white petals with pink and with a yellow throat, it is one of the most lovely of all. Tended like L. Spicatum in the garden, it appears to be as hardy as either and a most welcome addition to what we already have. It is to be grown and flowered in pots."

Portland, Ore. ....	March 16, 1928.	
Mr. Robert C. Young, Greensboro, N. C.		
Dear Sir:		
Your shipment to hand, and upon unpacking, we find them to be in first-class condition. We are quite pleased with them, as we did not think they could stand the distance of transportation so well as they did.		

**NOTICE TO CUSTOMERS**

I would say to those unacquainted with me that I was born and grew up in nursery work on my father's nursery and have been engaged in the nursery business all my life. After spending eight years in northern nurseries, I returned south and devoted my time and small capital to growing boxwood and evergreens, today I have millions of evergreens growing in one of the largest evergreen producing plants in the south.

Located in the Piedmont section of the State we have severe cold weather, but there is very seldom a week from September to May in which we can not dig and ship. You get your stock from me when you want it and when you must have it for results. I do not pack my stock in a cold storage or put it in a greenhouse to ship out during the winter months and early spring.

I dig your order right out of the ground where it is growing, puddle the roots at once, and puddle again before packing, wrap the roots in damp moss and over this wrap wax paper.

My packing is done in a cool damp cellar and I absolutely guarantee my stock to reach you in perfectly healthy condition.

I personally look after digging and packing each and every order. When you buy of me you get real service and good stock treated in the proper way.

A trial will convince you.

**REFERENCE**

As to my responsibility, I refer to any bank or business house in Greensboro, N. C., the commercial agencies and the leading nurserymen of the U. S.

STRANCERS will be required to comply with the above, or send cash with order.

**OUR LIABILITY AND GUARANTEE.** We exercise the greatest care to keep our trees true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price paid for trees. If goods are not accepted upon these conditions, they must be returned and money will be refunded.

TELEGRAPHIC ORDERS are usually filled the same day received.

**CODE—Use Nurseryman's Telegraphic Code,** published by the American Association of Nurserymen.

Washburne, Tex. .... January 25, 1928.  
Mr. Robert C. Young, Greensboro, N. C.  
Dear Sir:

I enclose this receipt for the plants you ordered in your last order. The plants arrived in good condition and I was able to place them in the ground. I have never received from any grower of being out of stock. Also the plants you sent me all looked very nice.

Hempstead, N. Y. .... May 4, 1928.  
Mr. Robert C. Young, Greensboro, N. C.  
Dear Mr. Young:

Your packing method is certainly all that you claim for it and the plants came through in splendid condition.

Hempstead, N. Y. .... May 23, 1928.
